### LANDSCAPE THREAD PAINTING

September 13, 20, 27 and October 4

You may have seen the lovely pieces Diana created after learning this technique at Seminar 2017. Come to this class and learn how you can create your own stitched masterpiece using a favourite photograph as inspiration. You will supply an original photo of a landscape (no animals or people). If the photo is not your own, you will need to have the permission of the photographer. The picture will be replicated with thread on silk fabric, using simple stitches. Colours and shading are the most important part.

Bring your printed colour photograph (4" x 6" recommended), a 10" hoop with the inner ring bound, a 4" hoop, notebook, pencil, eraser, small ruler, scissors, #5 or #6 crewel needles, and DMC floss to match your picture. Your kit will contain the silk background fabric, cotton fabric, practice cloth, dressmaker's carbon and tracing paper. Specialty threads from the teacher's stash and the guild stash of threads will also be available. If you are unsure about whether your photo is suitable, bring more than one and Diana will help you decide which one to stitch.

This class is not suitable for a novice stitcher. Some experience with colour and shading is also preferred.
